Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4, 5, 6 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Angel, U.S. 3,013,612.

Angel discloses a plastic (col. 5, lines 10-15) seat assembly (13,35,21,34,27) having threads (15) and a seat (on 34) adapted to receive a fluid obstructing member (24) thereon. Angel discloses the spring loaded seat assembly movable between a first obstructed position, an open second position (col. 3, lines 6-11) wherein a range of fluid pressures exerted by flow past the seat and member causes the spring (17) to regulate the rate of movement of the seat assembly.

Angel discloses the seat assembly having a first (21) and second (34) component wherein failure of the first component (21) to move to the second position shear pins (37) allowing separation of the components (34,21).

Angel discloses a cavity between the flow obstruction object (24) and a flow restrictor (39).

Angel discloses a through passage (23).

Angel discloses a bypass (25) closed in the first position.

Allowable Subject Matter

Claims 3, 7-19 and 21-36 are allowed.

Response to Arguments

Applicant's arguments filed 14 January 2009 have been fully considered but they are not persuasive with respect to the original claims.

Applicants argue the prior art of Angel does not disclose a first and second position of the seat assembly, wherein the first position the member is on the seat and the passage is obstructed and in the second position the member is still on the seat but there is flow around the obstructed passage.

In the first position prior to dropping the ball, drilling mud is pumped through passage 23 and orifice 41 until 46 lands on 46a to allow pressure to build on 18 to compress the spring 17, the second position. The downward movement to the second position of 18 opens ports 25 to allow circulation.

Neither the prior art apparatus nor the rejected claims requires the seat assembly to be obstructed for operation of the bypass.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
